

Add the following new claims:

--23. An ink jet recording material according to claim 2, wherein said colloidal particles are colloidal silica.

24. An ink jet recording material according to claim 2, further comprising a sticking or adhesive interlayer on said support;

wherein the laminate of said support, said interlayer and said recording layer are obtained by a process which comprises forming said interlayer on said support, superposing said interlayer on a recording layer formed on a forming material, and then peeling said forming material off said recording layer.

25. An ink jet recording material according to claim 24, wherein said recording layer contains at least one of an amorphous silica or colloidal silica.

26. An ink jet recording material according to claim 24, wherein said interlayer contains at least one selected from the group consisting of thermoplastic resin, adhesive and pressure-sensitive adhesive.--
